

Telemedicine Policy and Consent

Telemedicine is offered thru our office under our EHR system which is HIPPA compliant. Telehealth services may be offered for visits that may not necessarily require an in person visit. Telehealth may also be offered after hours if the patient leaves a message on the answering machine and our Providers check the machine after hours, Holidays, and/or weekends. Please note that Providers are not required to check the answering machine after hours. However, Anglia Dailey, FNP-C, CEO of Dailey Pediatrics and Family Medicine, will make an effort to check when the office is closed after normal business hours. If you all and feel like a telehealth visit is needed, please note that on the voicemail that you leave with a call back number. Again, this does not mean that the messages will be checked or that you will get a telehealth appt after hours. However, Anglia Dailey CEO, FNP-C will attempt to meet the needs of our patients after hours.

Our telehealth services are HIPPA compliant. There will be no insurance claims made for telehealth. **There will be a charge of \$65 for the telehealth visit which will be collected at the time of service.**

Dailey Pediatrics and Family Medicine will ensure the same quality of care and is provided via telehealth would be in the office. There may be circumstances in which telehealth is not the best option and you may be advised to seek emergent care or be advised to go to an Urgent Care Clinic if it is not during our normal business hours. Again, we want to ensure the best care is provided to our patient.

By signing this form, I agree to the terms above and consent to telehealth services if applicable.
